

Dear _____,

Merry Christmas! While you were fast asleep, the reindeer and I made a quiet stop at your home. I tiptoed in and out so I would not wake you.

Thank you for the treats you left for us. They were yummy, and they gave us the energy to finish our big trip around the world!

I hope your day is full of fun, laughter and love. Remember, the best gifts are the kind things we do for each other. Keep sharing your big heart every day.

Now I am flying home to the North Pole for a long winter nap. Until next Christmas, keep being you!

Love,

Santa
